HIGHER EDUCATION PERSONNEL TRAINING PROGRAMS: 1971-72

Introduction

The Higher Education Personnel Training Programs described in this booklet have been authorized under Part E of the Education Professions Development Act of 1967 which amends Title V of the Higher Education Act of 1965.

The objective of these training programs is to assist institutions of higher education in meeting critical shortages of highly qualified personnel who are serving or are preparing to serve as teachers, administrators, or educational specialists in 2 and 4-year colleges and universities.

Allocation of Fellowships to Institutions

The institutions listed in this booklet have been awarded fellowships by the U.S. Office of Education. These awards are to be used in the training programs described under the name of each institution. These 91 programs, costing $5 million, will provide training for 903 graduate Fellows in a wide variety of academic and professional areas. Advanced degrees are awarded in nearly all programs. Persons interested in participating in one of these programs should apply directly to the institution.

Fellowship Program

Higher Education Personnel Fellowships are awarded for one or two years, depending upon the requirements of the approved program. Each Fellow will receive a stipend of $2,400 for the first 12-month period and $2,600 for the second 12-month period of a 2-year program, including an allowance of $500 per year for each dependent. If summer study is not a part of the approved training program or the Fellow does not attend summer school, the stipend and dependency allowance will be reduced. In addition, an allowance of $2,500 will be paid to the institution for each enrolled Fellow to cover the costs of tuition and nonrefundable fees. Fellowships are allocated to graduate programs for the training of 2 and 4-year college and university teachers below the doctoral (Ph.D or equivalent) level and nonteaching higher education personnel (administrators and educational specialists) at all levels. No allowance for travel is provided.

A person may be nominated for a fellowship by an institution only if at the time he is to commence study under the fellowship he:

(1) has been accepted for full-time graduate study in an approved program at the nominating institution;

(2) intends to pursue a career in higher education in the United States, its Territories and Possessions, and Puerto Rico;

(3) is a citizen or national of the United States, or has such immigration status and personal plans as to indicate that he is in this country for other than a temporary purpose.

Application Procedure

Applications should be obtained from the institutions noted in this booklet, not from the U.S. Office of Education. Participants in EPDA Part E programs are nominated or selected by the institutions. Fellowship nominations are recommended to the U.S. Commissioner of Education for award and are tenable only at the participating institution and in its approved programs. Applicants are advised to write to the individual institution concerning its deadline for receipt of applications.

NOTIFICATION TO MEMBERS OF CONGRESS

The Higher Education Act of 1965, P.L. 89-329 as amended by P.L. 90-35
Title V, Part E, Education Professions Development Act

The Office of Education has approved 903 fellowships under Part E of the Education Professions Development Act (EPDA) to meet critical shortages of higher education personnel and to improve the qualifications of the college and university teachers and other personnel. The fellowship programs will be conducted during the summer of 1971 and the 1971-72 academic year in 80 colleges and universities located in 41 States and the District of Columbia. The total cost of these programs will be $5 million.

Higher Education Personnel Fellowships are awarded for one or two years, depending upon the requirements of the approved program. Each Fellow will receive a stipend of $2,400 for the first 12-month period and $2,600 for the second 12-month period of a two-year program including an allowance of $500 per year for each dependent. In addition, an allowance of $2,500 will be paid to the institution for each enrolled Fellow to cover the costs of tuition, instructional fees, and other training costs. Fellowships are allocated to graduate programs for the training of 2 and 4-year college and university teachers below the doctoral (Ph.D. or equivalent) level and non-teaching higher education personnel (administrators and education specialists) at all levels.

The programs supported were selected from 233 proposals from 151 institutions requesting 3279 fellowships which would require close to $18 million to fund.

All proposals were evaluated by panels of independent professional consultants from colleges and universities, who recommended the programs to be supported. More than 70 percent of the programs are for the training of junior college teachers, specialists and administrators. About 40 percent are directed to the needs of the economically disadvantaged.

The approved programs are listed alphabetically by state and institution on the pages following this notification.

The allocations are contingent upon institutional compliance with regulations issued under Title VI of the Civil Rights Act of 1964, which provides in section 601 that no person in the United States shall on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.
